

June 22, 2020

2020/21 School Start Date

Manitoba Education has informed us today that the 2020/21 school year will begin on September 2, 2020 for teachers and staff, providing time for preparations in advance of students returning to learning on September 8, 2020. September 2, 3 and 4, 2020 have been mandated as non-instructional days.

Schools will use this time to prepare physical spaces, educate staff on public health protocols, and engage collaboratively on approaches to recovery learning.

As information is received from the province, we will continue to update you on how WSD is addressing physical distancing and public health protocols in our schools and offices.
