3:30 p.m.

In an effort to curtail the spread of COVID-19 virus, MSBA Risk Management has recommended that all Manitoba School Divisions close all play-structures on all school grounds effective immediately until further notice.

These structures are high touch areas and with the Public Health directive to maintain a 2 meter distance, we encourage parents and kids to use the open large spaces such as fields and parks.

Winnipeg School Division is currently in the process of putting up signage and removing swings in all 89 of its school playgrounds.
